Abstract	i
Kurzfassung	ii
List of publications	v
1 Introduction	1
1.1 Motivation	1
1.2 Objectives	2
2 Background and experimental procedures	3
2.1 The role of fire in Australian ecosystems	3
2.2 Strategies for persisting in fire-prone regions	4
2.2.1 Response to fire	5
2.2.2 Canopy seed storage and serotiny	5
2.3 The genus <i>Banksia</i>	7
2.3.1 Fruit development and arrangement	7
2.3.2 Conditions for follicle opening and seed release	8
2.4 Movements of woody fruits and seed pods	9
2.4.1 Linking structure and mechanics in woody tissues	9
2.4.2 The role of water and temperature	11
2.4.3 Realisation of dehydration-driven movements	12
2.5 Materials and main methods	13
2.5.1 Sample material	13
2.5.2 Determination of follicle opening temperatures	14
2.5.3 Structural characterisation and imaging	14
2.5.3.1 X-ray microtomography	14
2.5.3.2 Vibrational micro-spectroscopy (Raman and FT-IR)	15
2.5.3.3 Mechanical characterisation	17
3 Publication I	19
3.1 Preface	19
3.2 Author contribution	19
3.3 Publication notification	20
3.4 Publication	21
3.5 Supporting information	34
4 Publication II	39
4.1 Preface	39
4.2 Author contribution	39
4.3 Publication notification	39

4.4	Publication	40
4.5	Supplementary Materials	48
5	Publication III	51
5.1	Preface	51
5.2	Author contribution	51
5.3	Publication notification	51
5.4	Publication	52
6	Conclusions and Outlook	65
	References	68
	Acknowledgements	72
	Eidesstattliche Erklärung	74
