Executive summary	IX
Kurzzusammenfassung.....	XI
General introduction and outline of the work	1
Part 1: How firms impact cities: A capability perspective on firm-driven collective action ...	12
1. Introduction	12
1.1. Firms lack a collective action capability.....	13
1.2. Cities constitute a non-market environment	14
2. Towards a collective action capability	16
2.1. Economic perspective	17
2.2. Political sociology perspective	18
2.3. Institutional theory perspective.....	20
2.4. Firm-driven collective action.....	24
2.5. Modeling collective action capabilities	26
3. Firm-driven change in city-fields.....	30
3.1. Enabling change.....	30
3.2. Framing capability	32
3.3. Enactment capability.....	37
4. Discussion	41

5. Concluding remarks	44
Part 2: Institutional logics in practice: How change agents manage collective action in cities	46
1. Introduction	46
1.1. A primer on city change.....	46
1.2. Logics of collective action	47
2. Theoretical context.....	48
2.1. Institutional logics in practice	49
2.2. Organizational and community logics	51
2.3. Conflicting logics of collective action in cities.....	52
3. Methodology	53
3.1. Theoretical sampling, data collection, and analytical approach	53
3.2. Research context	57
4. How change projects invoke institutional logics.....	59
4.1. Project governance.....	60
4.2. Project framing.....	66
4.3. Project enactment.....	73
5. Discussion	80
5.1. Towards an integrative model of collective action	80
5.2. The use of practices for managing collective action.....	83
5.3. The logic of community action	85
6. Conclusion.....	87

Part 3: Managing embedded collective action: The performance and conformance effects of managerial and institutional design practices in cities	89
1. Introduction	89
1.1. Linking change practices to project outcomes	90
1.2. Addressing the gap between project performance and conformance	92
2. Theory and hypotheses	94
2.1. Combining lenses to analyze the effects of collective action	94
2.2. Collaborative governance	96
2.3. Framing	98
2.4. Enactment	100
2.5. Institutional design of collective action	103
3. Method	105
3.1. Dataset	105
3.2. Data mining	107
3.3. Variables	108
3.4. Statistical model	110
4. Results	111
5. Discussion	119
5.1. The effects of managerial and institutional design practices	119
5.2. Practices for embedded collective action	121
5.3. Non-market strategies for innovation diffusion	122
6. Conclusion and further research avenues	123

Thesis conclusion 125
