1	INTRODUCTION	1
1.1	Motivation	2
1.2	Contribution	7
2	THE WELFARE IMPACT OF USING SECOND-BEST UNIFORM TAXES TO ADDRESS TRAFFIC CONGESTION	9
2.1	Introduction	11
2.2	Theoretical framework	13
2.3	Data	15
2.4	Empirical strategy	20
2.5	Estimation results	22
2.6	Welfare losses from SBO taxes	25
2.6.1	Delay	25
2.6.2	Tax calculations	26
2.6.3	Welfare calculations	29
2.7	Conclusion	30
	APPENDICES	33
2.A	Supplementary Tables and Figures	34
3	MAKING URBAN TOLLS WORK FOR CITIZENS	39
3.1	Introduction	41
3.2	Experimental Design and Data	42
3.3	Hypotheses	46
3.4	Empirical Strategy	48
3.5	Results	49
3.6	Conclusion	57

APPENDICES	59
3.A Supplementary tables	60
3.2 Video Messages	62
3.3 Questionnaire	62
4 CARBON PRICING AND CREDIT REALLOCATION	71
4.1 Introduction	73
4.2 Institutional Setup	76
4.2.1 EU Emission Trading Scheme (ETS)	76
4.2.2 Negative interest rate policy and bank pass-through	78
4.3 Data	79
4.4 Empirical Strategy	82
4.4.1 Triple differences	82
4.4.2 Matching	83
4.5 Results	85
4.5.1 Baseline effect	85
4.5.2 Dynamic effect	88
4.6 Conclusion	90
5 SYNTHESIS	91
5.1 Taking stock	94
5.1.1 Traffic congestion	94
5.1.2 Banking	96
5.1.3 Carbon pricing	97
5.2 Outlook	99
